

Custom Earmold Material

Acrylic: (Clear, Beige, Pink & Brown ~ Secretear)

- ❖ Mild thru Severe losses

This is a hard, rigid material. It is available in most all molds. Excellent where ear tissue is not extremely pressure sensitive. It is also available in Secretear, Matte Finish (a non-glare satin finish that is unobtrusive in the ear) or a High-Gloss finish.

Body Soft Canal w/ Acrylic: (Clear, Beige, Pick & Brown ~ Secretar)

- ❖ Mild and Severe losses

This material has a hard and rigid acrylic concha with a body softening acrylic canal. This material is great for pressure sensitive ear canals. It is available in Matte Finish or a High-Gloss finish.

Vinyl: (Pink Tint or Brown)

- ❖ Mild Thru Profound losses

This is a semi-soft, pliable material. Material has a long and useful life; great for children.

Silicone 1: (Beige, Brown, White and Pink Tint, Multicolor)

- ❖ Severe thru Profound Loss

This is a multi-soft, extremely pliable material. It is a non-toxic material and Hypo-Allergenic. This material is great for sensitive ear tissue.

Silicone 2: (Beige, Brown, White and Pink Tint, Multicolor)

- ❖ Severe thru Profound Loss

This is a soft, pliable material. It is non-toxic and hypo-allergenic. This material also comes standard with an open bore. If you are looking for comfort-this is the mold for your client! The canal comes in 4 grades of softness to provide comfort and a great fit.

Medical Grade Silicone: (Clear or Secretear ~Brown Tint or Pink Tin, Multicolor)

- ❖ Severe thru Profound losses

This material is very flexible, super soft and light. It is hypo-allergenic and non-toxic.

Hydro-Tight - floatable swim plug (any color & Multicolor)

- ❖ Made of soft, velvet-like silicone material often referred to as Aqua Seal

Available in any color and Multicolor Easy-grip molded handles come standard to make removal a breeze. Also, our custom-made swim plugs are floatable, so you won't lose them!

Musician's Earplugs: (Beige, Brown, White and Pink Tint, Multicolor)

- ❖ Made out of our Silicone Material for comfort

Canal only style, ER-9, ER-15 and ER-25 attenuators are offered; specify Standard, Partially Countersunk or Countersunk.
